- Erroneous Miscellaneous Charges

THE PREMIER SMALL PARCEL FREIGHT AUDITING & AUTOMATION SOLUTION

Atto Solutions reentered the small parcel auditing market after honoring its 5 year non-compete agreement following a sale to PRGX in the late 90's. Atto Solutions, previously the market leader Medallion, is returning to the market with a technologically superior offering that is winning new business and converting clients from competitors.

Atto's services not only save their clients significant amounts of money, it also saves them huge amounts of time. "We would need a full time person just auditing (our carriers) bills" said Robert Bethke of Backcountry.com, "we have huge numbers of packages going out, up to 6000 packages a day during peak times. The savings are real."

Does your company ship a significant amount of packages? If so you are losing money...count on it!

Anyone shipping a significant volume of packages via FedEx, DHL, or UPS should be auditing. Atto Solutions is a Salt Lake City based small parcel auditing company specializing in medium and enterprise business

services. Past and present clientele include: Overstock.com, Sony, Tandy, Williams Sonoma, Sharper Image, Backcountry.com, Applied Materials, Cisco Systems, Symantec, Bristol Myers Squibb, Intuit, Nuskin, Iomega, and more.

WHY ARE COMPANIES SWITCHING TO ATTO?

Atto Solutions has brought an unprecedented level of automation to the small parcel auditing business. With no up-front costs and fees based on only a percentage of the money we actually save your company, this is truly a win-win scenario. Our 16 years of

market experience has allowed us to develop tools that save clients up to 80% of the time typically spent managing small parcel shipping, this allows personnel managers to redirect employee efforts to other mission critical projects. Atto's solution allows clients

to have 24 hour access to key information via an easy to use web-based interface. Try our service and start saving immediately!
